DETAILED ACTION

1. The Board of Patent Appeals and Interferences affirmed the rejection(s) against claim(s) 25-31, 34-28, and 41, but reversed all rejections against claim(s) 32, 33, 39, 40, and 42. The claims the Board affirmed the rejections of are cancelled by the examiner in accordance with MPEP § 1214.06. Independent claim 32, which 33 depends from, independent claim 39, of which 40 depends from, and independent claim 42 are allowable. Prosecution is otherwise closed.

Examiner's Amendment

2. In accordance with MPEP 1214.06 and in light of the Board's decision affirming the rejection of claims 25-31, 34-38, and 41:
3. Claims 25-31, 34-38, and 41 are **cancelled**.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:
5. The closest prior art to claims 32, 33, 39, 40, and 42 are US Pub. No. 2004/0166940 ("Rothschild") and US Pat No. 7,198,571 B2 ("LeMay").

6. Rothschild discloses a system for integrating casino gaming with non-casino interactive gaming. The system includes wagering games may be conducted on either gaming machines 12 in a casino or computing devices 14. ¶ 0011. Rothschild further discloses features such as a player identification card (¶ 0030), a player account database (¶ 0030-31), a trend analysis computer 36 (¶ 0035).
7. Rothschild, however, does not disclose detecting a player as a player traverses a gaming facility and approaches an area of the gaming facility in which the gaming machine is located and instructions causing switching game presentations to a game likely to be favored by the player prior to the player's arrival at the gaming machine.
8. LeMay discloses a in-room gaming system which detects a player and the player's preferences. In the player's room an entertainment terminal provides a variety of games for playing. LeMay col. 2 lines 37-58. An authentication instrument is issued to a player; the instrument is registered with the player's preferences for in-room game-play. LeMay col. 10 lines 30-40; col. 15 lines 40-52. If a player plays a game, game play is initiated based on the preferences the player previously selected. LeMay col. 18 lines 10-32.
9. LeMay, however, does not appear to disclose that a game presentation likely to be favored by a player will be specified/identified by a system and that game will be switched to a presentation likely to be favored by a player. The claims require

that an active, intelligent analysis occur by a game system performing an analysis (beyond basic awareness that a player has set some game settings), and based on that active, intelligent analysis of a preferable game presentation, a game is switched to a game presentation a player is predicted to prefer. LeMay's system simply provides players a game based on the player's own pre-sets and does not specify or identify a particular preference of game presentation a player might be attracted to.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
